

**Kat King**  
**Student Support Officer**

## **Union Council – October 2007**

### **Campaigns**

The Use it. Keep it. Love it! campaign has now officially started, campaign materials include a Use it. Keep it. Love it! guide, which details the activities and services that the Students' Union has to offer; and four separate posters focusing on the different stages of the campaign. In addition to the guide and posters there are Use it. Keep it. Love it! branded toothbrushes; that I have, and will continue to, be handing out to students throughout the duration of my campaign. Stalls have been organised in the library, the Union, Halls and various University buildings; for four hours a day, everyday of the third week of term, and after that once a week. From these stalls, myself and other sabbatical officers are able to distribute my campaign material and talk to as many students as possible, about the advantages and benefits that the UPSU has to offer. Events for the Sexual Health And Guidance week are currently being organised, which will include a film night, and hopefully a visit from the Portsmouth G.U.M clinic giving free testing and advice.

### **R.A.G**

The first R.A.G meeting took place on 11<sup>th</sup> October, at which I gave a presentation on the history of R.A.G and my ideas for the coming year. The R.A.G committee was also elected, and the first committee meeting will take place on 19<sup>th</sup> October, at which a list of possible charities for us to support can be put forward. The first intended event will be a 10 mile 'fun' walk around interesting landmarks in Portsmouth, in which I hope a target of two hundred and fifty people will take part in.

### **Halls**

I will be attending the upcoming elections for the Halls Executive Committees.

### **Union Council**

Following the new and improved structure of Union Council, within my job role I will be insuring that the constitution is upheld, and the UPSU remains a democratic organisation.

### **Student Support**

I have dealt with a variety of student support issues, including difficulties with landlords and course problems.
